Principal's Message

Hello Pipestone Families,

It looks like spring is around the corner which means big puddles and wet clothes! This month we spring ahead for daylight savings and have Spring Break to look forward to. We are also very excited to have our first STEAM night and open house on March 13 from 4:30-6:00pm. It is a great opportunity to meet the teachers, see the school and have some fun with your family while you try some different activities that focus on science, technology, art and math. If you know of families who might want to know more about our school, please invite them to join you! Be sure to check out the calendar for additional activities happening this month.

Tanya McFarland
Principal, Pipestone School

Pipestone News

Staff Spotlight

Meet some of our support staff

Hi, I'm Gracie Bachman, and I'm excited to be a first-year Educational Assistant at Pipestone School! I graduated from Pigeon Lake Regional School last year, and I will eventually be heading to Red Deer Polytechnic to pursue my Bachelor of Education. I've always had a passion for working with children and have gained lots of experience over the years. Being in the classroom and helping students succeed is something I truly love and I'm grateful to be part of the Pipestone community this year!

I look forward to continue learning and growing in this role!

Hello my name is Sandy Kadatz. I am new to Pipestone School, but I have 25 years of experience as an Educational Assistant. I reside in Breton with my husband and my daughter. My interests are camping as well as outdoor family time. Both are very dear to my heart. Currently I am a part of the Pipestone faculty. I feel blessed to be part of such a great group. The students here are helpful and a pleasure to work with. I would like to thank the Pipestone staff and especially the amazing students.

Learning buddies is going strong

Leaving time for teacher collaboration

Welcome to our Kindergarten Classroom!
We are an inclusive learning community
where we create a caring and safe
learning environment. We learn through
play and hands on experiences while
focusing on academic, emotional, social
and physical child development.

Let's play & learn together!
